“Miss Carolyn” has worked with children for more than 30 years and is now here sharing her work and curriculum with Willits. Her magic is available to parents, caretakers, teachers, doctors, therapists and more. If your world includes children it should also include Miss Carolyn.

Morning workshops include handouts to go along with the presentation. “We will do a lot of the activities ourselves so it is very interactive ... not so much lecture.”

The **Afternoon Session** is for sharing morning skills among children and their families.

TOPICS presented during this series will include:

- The Outdoor Classroom with children
- Children as Illustrators
- Movement: music/dance/drama with children
- Cultural Studies Activities
- Updated Montessori Language and Math Activities.

Those interested in Carolyn's new book “The Outdoor Classroom” may order books ahead of time or at the workshop.
